BRONSON WHITMORE

Data Science and Economics

Albany, Oregon | (808) 628-0705 | bronson.p.whitmore@gmail.com
linkedin.com/in/bronsonwhitmore | github.com/whitmorb

SUMMARY

Oregon State University data science student developing Python, R, and statistical analysis skills for business and financial decisions. Brings experience designing a referral program that generated $5.7 billion in customer deposits and leading a 12-soldier satellite operations team.

EDUCATION

Oregon State University Expected 2028

Bachelor of Science in Data Science, Economics option

Corvallis, Oregon

Selected coursework: Python for Data Science (DS 231); Computer Science II (CS 162); Statistical Methods (ST 351, in progress).

SKILLS

Programming: Python, pandas, R, object-oriented programming, recursion

Analysis: Descriptive statistics, sampling, correlation, linear regression, data visualization

Tools: RStudio, PyCharm, Git/GitHub, Microsoft Excel (Level 1 certified)

Professional: Program management, team leadership, technical communication, training

ACADEMIC EXPERIENCE

Statistical Analysis in R Fall 2026

Oregon State University | R and RStudio

- Created plots and calculated correlation coefficients to examine relationships between variables.
- Fit simple linear regression models and interpreted slope and intercept in coursework problems.

Python Programming Projects Summer 2026

Oregon State University | Introduction to Computer Science II

- Developed programs using classes, dictionaries, recursion, and linked lists, including simulations and data structure exercises.
- Wrote unit tests with Python's unittest module to verify calculations and exception handling.

Iris Dataset Analysis Spring 2026

Oregon State University | Python and pandas

- Loaded Iris data into pandas DataFrames and checked the dataset structure before analysis.
- Calculated average flower measurements by species to compare groups using descriptive statistics.

PROFESSIONAL EXPERIENCE

Referral Program Manager
Jan 2020 - Jan 2024

Lido DAO

- Designed and implemented a referral program that generated $5.7 billion in customer deposits within 24 months.
- Managed millions of dollars in monthly liquidity incentives across 10+ blockchains.
- Led a geographically distributed team to execute incentive strategies on schedule.
- Implemented multi-signature wallet controls to protect program funds, with zero theft incidents.

Satellite Operations Shift Manager / Satellite Operator
Sep 2014 - Oct 2017

U.S. Army

- Led a team of 12 soldiers supporting global satellite operations and delivered daily technical briefings.
- Operated and maintained $120 million in satellite systems, sustaining 100% uptime in hostile and austere environments.
- Verified satellite payload functionality, including WGS 8 characterization and verification; certified in satellite command, monitoring, maintenance, and operation.
- Advised Navy SATCOM operators aboard the USS Hopper on satellite communications and reducing service interruptions.

HONORS

Dean's List | Utah Valley University
Apr 2025

Early Promotion to Sergeant | U.S. Army
May 2015

Promoted ahead of peers for satellite operations leadership and mentoring junior soldiers.

COMMUNITY SERVICE

Construction Volunteer and Youth Mentor
May 2017 - Jun 2017

Paws for a Cause | Honolulu, Hawaii

- Contributed to volunteer construction projects supporting the organization's programs.
- Mentored and coached at-risk youth.

INTERESTS AND HOBBIES

Soccer; West Coast swing dancing; real-time strategy games; exploring AI tools.
